

LONGWOOD GARDENS' MAIN FOUNTAIN GARDEN PREMIERE WEEKEND

26-05-2017

Longwood Gardens' Main Fountain Garden will officially have its grand reopening this Saturday May 27, 2017. The fountain has undergone a complete reconstruction, its first revitalization since it was first built in 1931. Two years and ninety million dollars later, the fountain has been restored to its original glory with the technology of the 21st century. For the premier weekend, the Main Fountain Garden will be open Saturday and Sunday from 9 AM to 10 PM for ticket holders of the fountain show which will be part of Longwood's "[Summer of Spectacle](#)" series.

In addition to daily fountains shows, guests will enjoy tours, concerts, and special events throughout the summer. The gardens will have extended visiting hours on Thursdays, Fridays, and Saturdays for evening illuminated Fountain Shows. In addition, the popular [Fireworks & Fountains shows](#), featuring illuminated fountains and fireworks choreographed to music, will return with six exciting special shows--the first on this Sunday, May 28.

The crown jewel of the most significant fountain collection in North America, Longwood's Main Fountain Garden rivals the magnificent fountains of Europe with its beauty and ingenious application of leading-edge technologies and design. The Main Fountain Garden is a hallmark of the Longwood experience visited by more than 1.35 million people each year. As Longwood embarked on preserving the Garden, the team looked to the future to honor Pierre S. Dupont's vision and ensure the continued enjoyment of the fountains with an original concept of "adaptive restoration" guiding thousands of design, restoration, and technology application decisions.
